## Volume 43

Sensitivity of normal and neoplastic human renal tubular epithelium to hyperthermia S. Dessureault, P. Brown, T. Ghose, O.P. Kamra and P. Belitsky (Halifax, Canada) . . . . .	1–8
Serum and urinary prostatic inhibin-like peptide in benign prostatic hyperplasia and carcinoma of prostate T.R. Teni, A.R. Sheth, M.R. Kamath and N.A. Sheth (Bombay, India) . . . . .	9–14
Modulation of methylcholanthrene-induced carcinogenesis in the uterine cervix of mouse by indomethacin A.R. Rao and S.P. Hussain (New Delhi, India) . . . . .	15–19
Radiosensitizing effect of camphor on transplantable mammary adenocarcinoma in mice H.C. Goel and A.R. Rao (New Delhi, India) . . . . .	21–27
Subcellular localization of sialic acid in human brain tumors E. Kökoğlu, H. Sönmez and A.C. Sarioğlu (Istanbul, Turkey) . . . . .	29–31
Influence of mouse uterus on the metastatic patterns of tumour cells P. Maharajan, G. Paino, F. Rosato, N. Mirabella, G. Pelagalli and V. Maharajan (Naples, Italy) . . . . .	33–36
Human KRAS oncogene expression in meningioma C. Carstens, E. Messe, K.D. Zang and N. Blin (Homburg, F.R.G.) . . . . .	37–41
The heme biosynthetic pathway in lymphocytes of patients with malignant lymphoproliferative disorders N. Schoenfeld, O. Epstein, M. Lahav, R. Mamet, M. Shaklai and A. Atsmon (Petah Tiqva and Tel Aviv, Israel) . . . . .	43–48
The galactosyltransferase activity of hepatic nodules during rat liver carcinogenesis M.W. Roomi, M.M. Mitranic, E. Farber and M.A. Moscarello (Toronto, Canada) . . . . .	49–54
Decreased cytosolic levels of the heme binding Z protein in rat hepatocyte nodules and hepatocellular carcinomas M.W. Roomi, S. H. Vincent, E. Farber and U. Muller-Eberhard (Toronto, Canada and New York, NY) . . . . .	55–58
Study on the long-term toxic efficacy of cytosine-arabinoside in Sprague–Dawley rats M.R. Berger and D. Schmähl (Heidelberg, F.R.G.) . . . . .	59–64
Inhibition of mouse hepatocyte intercellular communication by phthalate monoesters J.E. Klaunig, R.J. Ruch, A.B. De Angelo and W.H. Kaylor (Toledo and Cincinnati, OH) . . . . .	65–71
Modulatory influences of exogenous estrogen on MCA-induced carcinogenesis in the uterine cervix of mouse P. Das, A.R. Rao and P.N. Srivastava (New Delhi, India) . . . . .	73–77
Sialic acid content in mouse myeloma cells and derived B-cell hybridomas with different metastatic potentials J. Friedman, H. Levinsky, D. Allalouf and A. Staroselsky (Petah Tiqva and Tel Aviv, Israel) . . . . .	79–84
Angiogenic activity of rat mammary carcinomas induced by 7,12-dimethylbenz[ <i>a</i> ]anthracene and its inhibition by medroxyprogesterone acetate: possible involvement of antiangiogenic action of medroxyprogesterone acetate in its tumor growth inhibition T. Oikawa, A. Hiragun, Y. Yoshida, H. Ashino-Fuse, T. Tominaga and T. Iwaguchi (Tokyo, Japan) . . . . .	85–92
Enhancement of bovine papillomavirus-induced cell transformation by tumour promoters S.S. Tsang and H.F. Stich (Vancouver, Canada) . . . . .	93–98
Quantitative morphometric comparison between the expression of two different "marker enzymes" in preneoplastic liver lesions induced in rats with low doses of N-nitrosodiethanolamine H. Zerban, R. Preussmann and P. Bannasch (Heidelberg, F.R.G.) . . . . .	99–104
Effects of trisodium nitrilotriacetate monohydrate, nitrilotriacetic acid and ammonium chloride on urinary bladder carcinogenesis in rats pretreated with N-bis(2-hydroxypropyl) nitrosamine Y. Kitahori, T. Shimoyama, M. Ohshima, H. Matsuki, H. Hashimoto, S. Minami, N. Konishi and Y. Hiasa (Nara, Japan) . . . . .	105–110

Inhibition of growth and linoleate-enhanced metastasis of a transplantable mouse mammary tumor by indomethacin N.E. Hubbard, R.S. Chapkin and K.L. Erickson (Davis, CA) .....	111-120
Effects of psyllium fiber and short-chain organic acids derived from fiber breakdown on colonic epithelial cells from high-risk patients E. Friedman, C. Lightdale and S. Winawer (New York, NY) .....	121-124
Lack of influence of butylated hydroxytoluene on modification of lung microsome mediated aflatoxin B <sub>1</sub> -DNA binding: role of pulmonary glutathione S-transferase A. Allameh, M. Saxena and H.G. Raj (Delhi, India) .....	125-131
Hepatic DNA adduct formation in rats treated with benzo[ <i>f</i> ]quinoline H.C. Sikka, C. Kandaswami, S. Kumar, J.P. Rutkowski, S.K. Dubey, K. Earley and R.C. Gupta (Buffalo, NY and Houston, TX) .....	133-138
Different epidermal growth factor growth responses and receptor levels in human colon carcinoma cell lines C.-W. Wan, M.K. McKnight, D.E. Brattain, M.G. Brattain, and Y.C. Yeoman (Houston, TX and Wallingford, CT) .....	139-143
Promoting effect of peroxisome proliferators in two-stage rat renal tumorigenesis Y. Kurokawa, N. Takamura, Y. Matushima, T. Imazawa and Y. Hayashi (Tokyo, Japan) .....	145-149
Active production and membrane anchoring of carcinoembryonic antigen observed in normal colon mucosa M. Kuroki, F. Arakawa, H. Yamamoto, H. Shimura, Y. Ikehara and Y. Matsuoka (Fukuoka, Japan) ...	151-157
Announcements .....	159
Chlorobenzilate-induced effects on enzyme-altered foci in rat liver and intercellular communication in rat liver WB-F344 epithelial cells S. Flodström, L. Wargård, H. Hemming and U.G. Ahlborg (Stockholm, Sweden) .....	161-166
Modifying effects of concomitant treatment with butylated hydroxyanisole or butylated hydroxytoluene on <i>N,N</i> -dibutyl nitrosamine-induced liver, forestomach and urinary bladder carcinogenesis in F344 male rats K. Imaida, S. Fukushima, K. Inoue, T. Masui, M. Hirose and N. Ito (Nagoya, Japan) .....	167-172
Contribution of polycyclic aromatic compounds to the carcinogenicity of sidestream smoke of cigarettes evaluated by implantation into the lungs of rats G. Grimmer, H. Brune, G. Dettbarn, K.-W. Naujack, U. Mohr and R. Wenzel-Hartung (Grosshansdorf, Hamburg and Hannover, F.R.G.) .....	173-177
Protective effect of iron chelators on epirubicin-induced fibroblast toxicity R. Henriksson and K. Grankvist (Umeå, Sweden) .....	179-183
Abnormal expression of the <i>MOS</i> proto-oncogene in human thyroid medullary carcinoma M.H. Parkar, J.M. Seid, B.M. Stringer, S. Ingemansson, N. Woodhouse and M.H. Goyns (Riyadh, Saudi Arabia) .....	185-189
Human renal carcinoma: asparagine independence with asparaginase susceptibility in culture M.D. Prager and F.S. Baechtel (Dallas, TX) .....	191-195
Comparative metabolism of phenanthrene and benzo[ <i>f</i> ]quinoline by rat liver microsomes C. Kandaswami, S. Kumar, J.P. Rutkowski and H.C. Sikka (Buffalo, NY) .....	197-205
Vaginal abnormalities in ovariectomized BALB/cCrgl mice after neonatal exposure to different doses of diethylstilbestrol T. Iguchi, P.L. Ostrander, K.T. Mills and H.A. Bern (Berkeley, CA) .....	207-214
Progesterone receptor heterogeneity and endometrial tumour differentiation C. Cheng, C. Bui and M. Cauchi (Melbourne, Australia) .....	215-218
Alphoid DNA nucleotide sequences from two human cell lines and the corresponding <i>cis</i> -diammine-dichloroplatinum (II)-resistant sublines V. Chan, K.E. Elliott, T.S. Herman and B.A. Teicher (Boston, MA) .....	219-225
Selenite distribution in log and confluent growth phase murine mammary epithelial cells D.G. Morrison, C.J. Oborn and D. Medina (Houston, TX) .....	227-236
Subject Index Volume 43 .....	237-240
Author Index Volume 43 .....	241-242
Contents Volume 43 .....	243-244
